25X1

Comments.

(1) Most of these shipments were included in former transportation reports.
 (2) Deliveries by Soviet Zone hydrogenation plants to the U.S.S.R.
 (3) These cars definitely were boxcars to be used for the shipment of grain from the U.S.S.R. to the Soviet Zone of Germany. Grain shuttle trains dispatched via Frankfurt/Oder [redacted]
 (4) Deliveries by Soviet Zone railroad car factories to the U.S.S.R. Information on repair shop trucks manufactured for the Soviets in Ammendorf was transmitted previously. [redacted]
 (5) Such shipments are reported for the first time. It is believed that the aircraft involved were unusable jet planes returned to the U.S.S.R. The shipments would explain the relatively large number of new jet planes arriving in the Soviet Zone from the U.S.S.R. for replacement. During the period from mid-January to mid-April, a total of 350 new jet aircraft was reported to have been shipped to the Soviet Zone of Germany. [redacted]
 (6) Probably unusable motor vehicles returned to the U.S.S.R. New vehicles, probably replacements, have been shipped to the Soviet Zone of Germany at an increased rate since early 1952. [redacted]
